ISRI PAC is another tool in ISRI's government relations toolbox. The PAC gives ISRI staff the ability to attend Congressional fundraisers and meet the people who have a very significant impact on our industry. The PAC is operated in a bipartisan manner, giving campaign contributions to Members of Congress who affect the industry most, regardless of party affiliation. Nonetheless, we try to give money as equally as possible to Democrats and Republicans, alike. Contributions are generally made based upon, among other criteria, the committee assignments of, and previous support for the industry by, Congressmen and Senators. The PAC Leadership Council (PLC), which is made up of ISRI members, oversees ISRI PAC.
