

# YOUR LETTERHEAD

January 21, 2010

The Honorable **Tom Carper**  
United States Senate  
Washington, D.C. 20510

Dear Senator **Carper**:

I am writing to introduce myself and urge you to join the House Recycling Caucus.

**ABC Corp.** was founded in 1892 by a \_\_\_\_\_. Currently in its 5th generation of family ownership, **ABC Corp.** has evolved into a quality, full-service provider in all major aspects of the recycling industry including **different grades of ferrous and non-ferrous scrap, paper, and plastics.**

The bi-partisan House Recycling Caucus, co-chaired by Representatives John Shimkus (R-IL) and Frank Pallone (D-NJ), presents a great opportunity to learn more about and help promote the vibrant recycling industry and its significant contributions to the economy and the environment.

The recycling industry faces a myriad of important issues ranging from environmental protection to international trade, among others. These issues significantly impact all sectors of the industry and commodities that include paper, glass, plastic, metals, rubber, textiles, and electronics.

I am confident that with your interest and participation in the House Recycling Caucus, recycling in our nation will greatly benefit. For more information about the Caucus or the scrap recycling industry, please contact Billy Johnson (202) 662-8548 or [billyjohnson@isri.org](mailto:billyjohnson@isri.org) at the Institute of Scrap Recycling Industries, Inc.

Best regards,
