

ISRI Electrification Roadmap: Summit Recap & What's Next

February 1, 2024

Dan Bowerson

Auto Innovators

Shane Thompson

Cirba Solutions

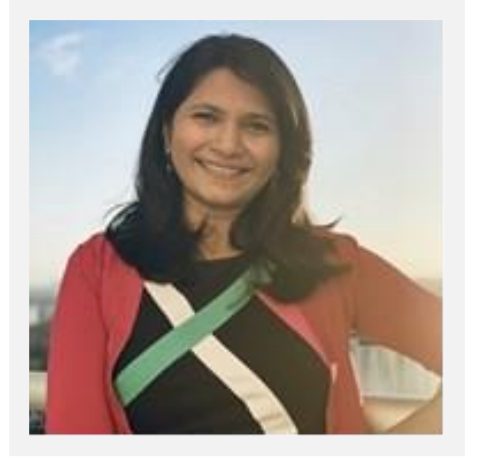

Hesham Ghoneim

Sims' Mobility Solutions

Chelsey Schneider

Energy Security Agency

Josephita Harry

Pan American Zinc

Key Takeaways

CONSUMER GROUP

ELECTRIC VEHICLE GROUP

**COMPLETE VEHICLE
GROUP**

- Roadmap should:
 - Outline the role of the recycled materials industry in battery circularity to policymakers, the public, and other stakeholders.
 - Identify current resources for the industry in the battery recycling process and other information on proper battery management and safety.
 - Outline the needs of the industry to continue to grow capacity and meet demands to support critical mineral needs.
 - Identify what actions the industry needs from stakeholders to support safe, profitable recycling of batteries, EV's and consumer electronics.

Will serve as an *invitation* for further collaboration
