ISRI NY Chapter is proud to extend the opportunity for vendors/supporters of the scrap industry to sponsor our chapter meeting on November 17, 2022.

This year we have secured 230 Fifth Ave, an incredible event space overlooking Manhattan. In addition to securing the rooftop bar and lounge we have reserved the Empire Penthouse which can accommodate 350 people and has direct access to the rooftop event space.

To make this a fun, memorable evening, we have booked a nationally popular comedian, Paul Virzi to perform.

The invitation is going out nationally, so we are going to have a large, diverse turnout. We are expecting this to be the largest event the New York Chapter has ever had.

Your support of our industry, an industry that is a major purchaser of your products and services, is vital to help us maintain the strong working environment in which we do business and to sustain our important place in the economy.

ISRI New York Chapter is offering three levels of sponsorship as follows:
