

## MONTHLY INSPECTIONS

In addition to inspecting your fire extinguishers monthly, consider numbering or labeling your extension cords and ladders and including these items in your monthly inspections. Here are some examples as to how you might identify individual pieces.

Also, think about the other safety items in your operation that should be inspected on a regular basis such as:

- First Aid Kits
- Bloodborne Pathogen Kits
- Eyewash Stations
- Lockout Stations

### What's on YOUR list?
