

SAFETYPOINT

Scrapyard Safety Training

WHY I DON'T WEAR SAFETY GLASSES:

Check the answer that best applies to you:

- They're uncomfortable.
- They hurt my nose.
- They fog up and I can't see.
- Sweat drips in them while I'm working.
- I've got two eyes and I'm willing to do without one.

There's no excuse for not wearing safety glasses. Eye hazards present themselves sometimes when you least expect them.

Be ready.

Wear your safety glasses.
