

## ISRI State Policy Resources

ISRI offers a range of member-only state policy resources, from in-state advocacy training(s) with chapter lobbyists, tracking and monitoring, to legal research and analysis, along with legal chapter contract review and much more. ISRI's State Policy Resource Catalog (see chart) was developed to help you navigate through extensive state policy services.

### ***Principles for Accessing State Policy Resources***

- ❖ ISRI's state program is a collaborative approach between ISRI and its respective chapters - designed to provide policy support through a central clearinghouse on key industry issues and services for state & local matters as requested by the chapters.
- ❖ ISRI state resources are available to *all* members, though some resources may only be accessed through a chapter request to ISRI. This ensures that resources continue to service the collective good of ISRI members.
- ❖ ISRI understands in-state lobbying and/or strategic negotiations on state matters remain within the purview of the individual ISRI member(s) and the chapter(s). Thus, public positions and strategies for addressing state policy concerns are reserved for ISRI chapters *unless* ISRI's Board of Directors has expressly approved a policy position on that exact industry concern. In all respects, chapters must not contradict [ISRI Positions](#);
  - Chapters control their choice of lobbyist(s) and/or legal representation along with associated cost(s). ISRI financial assistance is available for state matters that rise to the level of national significance. Guidance is in the ISRI Policy Manual, and [ISRI Staff](#) can help chapters with how to exercise this option.

### ***How to Access State Policy Resources***

- ❖ [ISRI's State Policy Page](#) provides easy access to the State Resources and Tracking page (members only), Metals Theft Law Database, and other state policy resources.
- ❖ ISRI's State Government Relations team is always available to assist chapters with state advocacy objectives.
